**Business Summary:**

Mission Critical Global Technology Group (MCGlobalTech) is a minority owned, small business founded by industry leaders to provide strategic advisory and security consulting services to public and private sector business managers to better align technology and security programs with organizational mission and business goals.

**Expertise Summary:**

Our staff is composed of technical subject matter experts and management level personnel. All management level consultants have over 15 years of experience in Cyber Security and IT Infrastructure management. All management and technical staff hold industry recognized certifications including: CISSP, CISA, CRISC, CEH, PMP, CCSE, CCSK, CBCP and ITIL. Our experts combine decades of experience in industries such as Finance, Healthcare, Manufacturing, Insurance, Education and Federal and State government agencies.

MCGlobalTech's proven **Assess-Plan-Implement-Monitor, (APIM)** service delivery methodology allows organizations to spend more energy and resources in addressing their specific risks and unique business requirements so that potential gaps can be identified and addressed accordingly.

MCGlobalTech provides **full life-cycle** information security support to ensure that federal agencies and commercial companies meet their regulatory and business security requirements. Our security life-cycle services provide support from system conception to system operation. Our services can be procured as a complete package or individually depending on where you are in your system's lifecycle.
